

Title: Position in Family Medicine (Assistant/Associate Professor level)

Burrell College of Osteopathic Medicine, Las Cruces, NM

*"Para la gente, y el futuro! For the people, and the future!"*

The Burrell College of Osteopathic Medicine (BCOM), one of the nation's newest and most innovative medical schools, located in beautiful Las Cruces, New Mexico, invites applications for two full-time, 12-month faculty positions, a passion for teaching and mentoring in the discipline of Primary Care Medicine.

Available Positions:

The Burrell College of Osteopathic Medicine seeks to fill up to two (2) faculty positions in the clinical disciplines with an emphasis on teaching didactic medical topics to undergraduate medical students.

Teaching is the primary focus of our faculty. The College has implemented a spiral, modified systems-based curriculum that will integrate disciplines to facilitate a comprehensive integration of the basic sciences into clinic applications.

The successful candidate will function as a member of a collaborative teaching team to develop and deliver their instructional content within an integrated curriculum. Primary responsibilities will involve teaching medical students through the systems-based courses during the first two years. Integration with basic sciences and clinical learning in order to help students apply foundational scientific and clinical knowledge in the clinical clerkship setting.

Minimum Qualifications:

- Terminal degree (DO, MD).
- Evidence of or interest in teaching foundational science in a medical school setting.
- Evidence of, or the potential for growth in, teaching, scholarly activity and service.
- Prior clinical experience in Family Medicine or General Internal Medicine is preferred.

Preferred Qualifications:

- Experience using or knowledge of innovative teaching methods which might include team-based learning, 'flipped classroom', problem-based learning, distance learning, interactive large group presentation, audience response systems, curriculum delivery systems (e.g. Canvas), and proficiency in exam item writing (USMLE and/or COMLEX-style).
- Experience with or interest in curricular and instructional design.

Specific Faculty Responsibilities:

- Approximately 80% time and effort devoted to delivering instruction in the first and second year medical student curriculum.
- Work collaboratively with other faculty members to develop and refine the integrated and interdisciplinary medical curriculum (1<sup>st</sup> and 2<sup>nd</sup> year).
- Supervise, advise, and mentor medical students through the curriculum.
- Approximately 20% time and effort devoted to service to the college including committee responsibilities, student mentoring, interviewing prospective students, etc.
- Develop and prepare teaching materials (presentations, lectures, exam items, etc.).
- Demonstrate professionalism as defined by the BCOM declaration of faculty professionalism and responsibility.

This full-time, 12-month position is available immediately. This position is an educational appointment reporting directly to the Chair of the appropriate academic department, and is

dependent on approval of funding. BCOM offers a competitive salary and benefits package, commensurate with appointed faculty rank, qualifications, and experience.

NOTE TO APPLICANTS: Applicants must currently be authorized to work in the United States on a full-time basis.

Application materials should include: a Curriculum Vitae; a cover letter which includes detailed statements of professional experience including any academic or instructional interest or experience; and the names and contact information of three references from whom the applicant has requested letters of recommendation. Letters should be sent directly to BCOM.

Applications will be accepted until the positions are filled, and should be submitted by electronic submission, the electronic application is located on our Career Opportunities section of our website or can be accessed via the link below.
