

Burrell College of Osteopathic Medicine
Faculty Handbook
Programmatic Level Educational Objectives

The College has established the following *Programmatic Level Educational Objectives* for the Doctor of Osteopathic Medicine degree program. Faculty contribute to the development and enactment of a curriculum aligned with the following objectives:

Programmatic Level Educational Objectives

Objective I:

Integrate knowledge and skills acquired from the biomedical, clinical, social, and behavioral sciences to provide patient care in a supervised setting.

Objective II:

Demonstrate competence in the skills of osteopathic manipulative treatment and the application of osteopathic philosophy in patient care.

Objective III:

Demonstrate professionalism, characterized by honesty, integrity, ethical behavior, empathy, and responsibility.

Objective IV:

Communicate effectively with patients, families, faculty, peers, and other members of the healthcare team.

Objective V:

Critically appraise, evaluate, and apply scientific evidence to inform patient care and research.

Objective VI:

Demonstrate awareness of the roles and interactions of professionals within the healthcare system and identify resources to optimize patient care at the individual and community levels.

Objective VII:

Identify the specific healthcare needs of diverse populations and the ways in which the medical community responds.
