

STUDENTS WITH DISABILITIES

The College complies with all regulatory statutes and accreditation standards for the purpose of accommodating students with chronic or short-term disabilities. Facilities have been designed to meet code requirements for accessibility. The College will make reasonable accommodations for qualified individuals with known disabilities as required by law. The plan for providing accommodations to students is governed by the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973. The College's Accommodation Policy can be found at:

SPECIAL ENVIRONMENTS

The College operates several programs that require the establishment of special environments for learning and research. Students are cautioned that hazardous chemicals are used and stored in these working laboratories. It is recognized that the risk of chemical exposure is present in these environments. Students who have questions regarding their participation in activities conducted in these venues should address their concerns to the supervising faculty, the designated laboratory manager or the Compliance Officer. Please reference the following policy for more information:

Pregnancy and Chemical Exposure

The College recognizes that not all chemicals stored or used in its special environments are uniformly toxic. However, the College has determined that any student who is pregnant, lactating, uncertain of their current pregnancy status, or is contemplating becoming pregnant in the near-future shall not be permitted to enter the gross anatomy lab or any other facility where hazardous chemicals or other toxic materials are being used. The College is prepared to provide comparable learning experiences where such is feasible and special environment participation is a significant element of the curriculum.
