

**Burrell College of Osteopathic Medicine**  
**Student Handbook 2021-2022**  
**Academic Support Services**

In order to reach their full academic potential, students may need assistance in such areas as individual data analysis, time management, study skills, and test-taking skills. The Office of Student Affairs and the College's Educational Specialists provide students with opportunities in identified areas of need such as learning strategies, meta-cognition, test-taking tips, time-management, and wellness. Students have daily access for confidential, one-on-one support, by appointment or on a walk-in basis, along with intermittent small and/or large group sessions. Faculty are also available during office hours and on walk-in bases to provide academic and content support as needed.

The College provides peer-tutoring to first-year and second-year students. The peer-tutoring program is coordinated through the Office of Student Affairs and is facilitated by students chosen as Lead Tutors. Peer-tutoring is designed to assist students who desire reinforcement of content in the various disciplines.

For a complete list of services and appointment information, please see the Academic Support Services website at:
