

Robert Goldstein, DO, FACP

Dr. Goldstein is a Professor of Internal Medicine and is the Chairman of the Division of Clinical Medicine at Burrell College of Osteopathic Medicine in Las Cruces, New Mexico.

Dr. Goldstein attended Washington University in St Louis for his bachelor's degree, then University of North Texas Health Science Center in Fort Worth. He completed his residency in Internal Medicine and Primary Care while on active duty at William Beaumont Army Medical Center in El Paso. During his time in the US Army, Dr Goldstein served as Chief of Internal Medicine at the US Army Medical Center, AL and was a lead flight surgeon PROFISed to the 101st Airborne Division. Dr Goldstein was also a member of the core group of the US Army Aeromedical Advisory Panel which formed national medical policy for aviators. He completed a tour at Walter Reed Army Medical Center and was an Assistant Professor of Medicine at the Uniformed Services Medical School in Bethesda, MD where he was awarded the Leonard Award for Excellence in teaching. He also served as the Chief of the Inpatient Medical Service at Walter Reed. Dr Goldstein then transitioned to civilian life and spent 12 years as an Associate Professor and Professor at University of Texas Southwestern in Dallas.

He was a long-term lecturer, ran resident morning report, was a founding member of the "Advisory and Teaching Colleges", and mentored a group of students through their years of medical school for 10 years. He taught them clinical skills weekly through the first two years and keep up with them on rotations. He was also a core member and a Co-director of the Clinical Medicine Course at UTSW, teaching the medical students at UTSW. Dr Goldstein was the Director of the Parkland Center for Internal Medicine which was the residency clinic for up to 165 UTSW residents per year in Dallas and managed a large cadre of teaching faculty. Dr Goldstein also taught in the UME curriculum as well and as inpatient and clinic attending. He also practiced in the ambulatory setting at this time in the faculty clinic. He then transitioned to a Program Director and started a Residency in Internal Medicine in Myrtle Beach, South Carolina (Affiliated with the University of South Carolina and the Edward Via College of Osteopathic Medicine) as well continuing in clinical practice. After his 4 years in South Carolina as Professor of Medicine at both institutions. Dr Goldstein transitioned to New Mexico and brings over 25 years in UME and GME experience to Burrell. He and enjoys the outdoors with his wife and two daughters in Southern New Mexico.
